ABOUT US

Background

Gary Altoonian, founder and president of Altoonian Builders & Remodelers, Inc., is a graduate of Drexel University with a degree in Civil Engineering. During his career, he has had hands-on design and construction experience and held leadership positions on a wide variety of projects, including residential remodeling and additions, commercial facilities, office construction and remodeling, historic renovation, building inspections and environmental clean up.

Approach

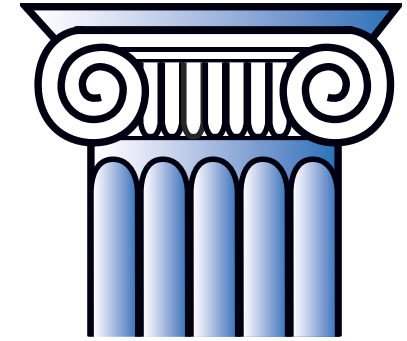

We approach each project using a knowledge base that crosses all trades. This allows us to focus on the solution using the correct mix of talents not just those in our tool box.

Quality

Sometimes it takes a little longer to complete a project the right way. We strive to complete the project correctly the first time, so there are no call backs regardless of the size of the project. We are proud that over 90% of our clients are repeat customers or referrals.

Home Improvements

Residential • Commercial
Industrial • Institutional

Altoonian Builders & Remodelers, Inc. was established in 1997 as a full service residential, commercial, institutional and industrial remodeling company. Our goal has always been to “EXCEED OUR CLIENTS’ EXPECTATIONS” regardless of the size of the project. Craftsmanship and high-quality materials are the fundamental components to achieve this goal. We service clients in the Southeastern Pennsylvania region from our headquarters located near West Chester, Pennsylvania.

Our staff are highly trained and experienced in engineering. We don't waste your time and money experimenting. We use listen to your needs and construct a solid solution and plan to meet your needs. We also have relationships with several professionals outside our firm with expertise in additional areas, should your project require them.

CODE OF ETHICS

Altoonian Builders & Remodelers, Inc. pledges to observe high standards of honesty, integrity, and responsibility in the conduct of business:

- by promoting only those products and services which are functionally and economically sound, and which are consistent with objective of health and safety.
- by making all advertising and sales promotion factually accurate with respect to product description, performance specification, and cost/benefit analysis and by avoiding those practices which tend to mislead or deceive the customer with respect to competitive pricing, savings claims or the nature and significance of contracts, warranties, finance agreements, completion certificates
- by writing all contracts and warranties such that they are fair and mutually beneficial to all parties concerned.
- by honoring all contractual obligations until and unless they are altered or dissolved by a mutual consent.
- by promptly acknowledging and acting on all customer complaints.
- by refraining from any act intended to restrain trade or suppress competition and to thereby promote the private enterprise competition.
